Burlington Books

READY *for the* LOMLOE

Options Student's Book
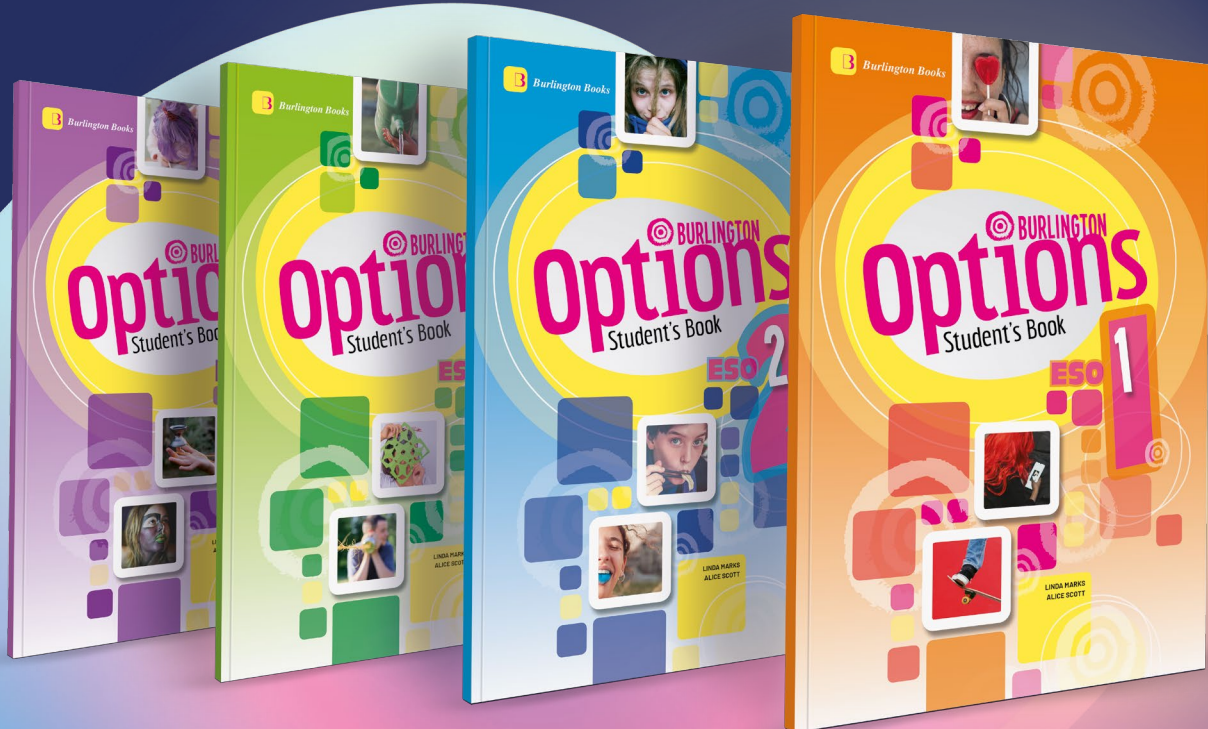

The best
option
for ESO

Why choose **OPTIONS?**

Options is an innovative modular-based course that provides students with the English skills they need for the 21st century and inspires all _eight key competences_ in a natural way.

Options' innovative structure gives students a sense of progress.

Six thematic modules with clearly integrated skills practice offer meaningful and varied productive tasks.

The wide variety in content and types of language incorporates the key competences in a natural way.

Up-to-date topics, presented through texts, and other digital options provide intercultural enrichment and STEM materials, and encourage social awareness, personal initiative and digital learning skills.

Productive tasks develop communication practice and mediation skills.

Creative tasks, problem-solving activities and collaborative projects give students the opportunity to express themselves in real-life situations.

A fully integrated approach develops plurilingual and reflective competences.

Options combines integrated skills work with solid language practice and encourages students to reflect on plurilingual aspects of language learning and develop critical thinking skills.

Enhanced evaluation tools offer additional review and assessment options.

Improved new evaluation tools now include: interactive _Section Reviews, Use of English, Competences Assessment_ as well as _Progress and Competences Check_ materials for students.

New features and functions on the Burlington Digital Platform offer the best digital solutions for effective learning.

Fully interactive Student's Books and Workbooks, additional digital classroom resources and online student support materials with interactive section reviews develop digital skills.

A full range of **Components**

OPTIONS

> Options brings the LOMLOE to life in the classroom.

Productive activities

Learning through competences

Options is a rich and exciting course designed to develop all key and specific linguistic competences.

- Task-based module structure enhances specific language competence development in every section, while the language learning process itself facilitates the other key competences.

- A focus on productive activities develops skills in communication, mediation and collaboration, and enables meaningful learning.

- Reviews and self-assessment pages encourage reflective learning (learn to learn) as well as initiative – students learn to think about and take responsability for their learning.

- Learning a foreign language naturally develops plurilingual and intercultural awareness.

- *Life Skills* boxes focus on linguistic competences as well as the key competences (Reflection, Social, Critical Thinking, etc.)

Flexible resources for different levels

Vocabulary presentation in context

Inclusivity

Options is a flexible course designed to accommodate a diversity of levels in the classroom and different learning styles.

- Varied and graded exercises and activities may be adapted to every student's pace.

- *Test Generator* with wide range of content and choice permits personalising evaluation.

- Collaborative projects, pair work, games and quizzes engage all students of all levels in active learning.

- Additional graded and consolidation practice in Workbook and online student support materials for self-study.

Digital

A wide range of blended materials develop digital competences.

• Through the online student support material with *Digital Options* students can study at home at their own pace online.

• *Project Options* encourage students to search the web and complement their learning with authentic materials and to learn to use the internet responsibly.

• *Digital Options* in the Student's Book provide additional material for classroom use (videos, games, slideshows and more).
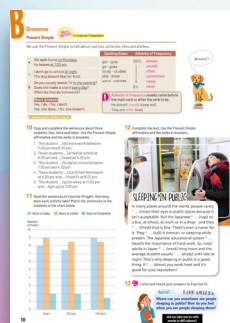

Digital Options
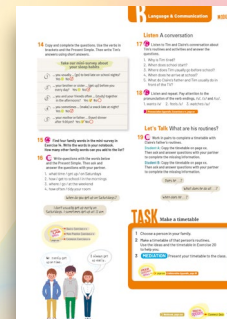

Digital research

21st century citizens

Through a careful selection of topics and activities, Options helps students acquire relevant 21st century skills, and develop an awareness of key issues related to being a world citizen.

• Carefully selected topics promote awareness of, and respect for, diversity, gender equality and the need for global sustainability.

• Tasks and projects develop creativity and mediation skills, encourage debate and collaboration to solve problems as well as promote practice of digital life skills.

• Real-world cultural, scientific and cross-curricular videos encourage and develop students' curiosity and general knowledge.

• Our courses incorporate education in STEM, and intercurricular work.
